Congratulations for winning the Legal Battle for the Majlis

The truth has finally prevailed, congratulations to all Hararis and especially to Harari Majlis leadership and its Legal Team for putting up a good fight and win successive court Legal battles. HAJE will always support and rally around you or any other Harari entity in its fight to protect our collective Harari interests be it legal or political. It is in this spirit that we stand with you, shoulder to shoulder, to challenge and defeat those who wish us harm.

National Election Board of Ethiopia (NEBE) Chairwoman Birtukun Midaksa has sought to capitulate the Harari Majlis with vengeance. She tried every legal maneuver at her disposal to subdue Harari right to self-rule but failed miserably.

Now and more than ever, we must work even harder to win the looming Political battle, that is, the self-rule right granted under the Federal Constitution. If the right to self-rule becomes a question post-election by the unionist groups, exploiting the current political turmoil in Ethiopia, then, the Majlis and every minority ethnic in Ethiopia must rally together and prepare to challenge. Losing the Federal Political System and end up with the old authoritarian centralized political system is a peril to Ethiopia. Hence, the recent cunning move by NEBE must be seen in this light and deserves serious attention.

Finally, Harari Majlis is the outcome of our struggle for Harari Nations self-Rule and self-determination. Literally by depriving Hararis from administering their own affairs means denying the constitutional rights that give them equal protection under the Law.

Harari Majlis is a symbol of our existence in the land we call Harar. It symbolizes that Harar belongs to Hararis. Winning the legal battle is a victory that sets legal precedent to all Ethnic minorities all over Ethiopia. We believe the struggle for the realization of our indigenous rights and minority rights might face more challenges and we must prepare for what's to come.
